

MTNL-STPI IT Services Ltd

MTNL STPI IT Services Ltd, a Joint Venture Company of MTNL & STPI, under Ministry of Communications & Information Technology (MoCIT), Govt. of India, has set up a State of the Art **Tier-III Data Centre** facility, strategically located at STPI building, Taramani, Chennai.

- **Salient Features of MSITS Data Center:**

Eliminates any single point of failure with multiple layers of redundancy in power systems, HVAC, fire detection and suppression, also concurrently maintainable with 99.98% uptime.
Highly secure state of the art physical infrastructure, including the latest in biometrically authenticated access control, video surveillance etc.,
All systems are monitored 24/7 through Building Management System (BMS).

- **Wide spectrum of services:**

Presently MSITS is offering Servers and Racks Hosting services.
Other services including managed hosting, co-location, disaster recovery, system integration, business continuity, managed security, storage and backup, virtualization, cloud computing and a range of application services shall be offered in due course and on case to case basis.

- **Advantages to Industry including SME units with MSITS Data Center:**

Data Center can be set up by an organisation with impeccable credentials in the line of business, for hosting servers and racks in MSITS, an organisation backed by the expertise of MTNL & STPI.
All facilities like Internet bandwidth, Power, Cooling etc. are available at one place with multiple layers of redundancy. The companies can eliminate CAPEX and OPEX towards IT infrastructure and kick start business from day one.
They can compete in global market.
SME units can save time and investment required for IT Infrastructure maintenance.
